Product Overview

High-power AC motor hair dryer designed for fast drying and hair protection using negative ion technology.

High-Power Professional Drying

This professional-grade hair dryer features a robust AC motor delivering between 2000W and 2200W of power, making it ideal for both high-traffic salons and demanding home use. Integrated negative ion technology works to protect hair health by reducing static and frizz, ensuring a smooth, salon-quality finish. Engineered for comfort, it combines high-velocity airflow with a silent operation design to improve the styling experience for both the professional and the client.
