

2000W Heavy-Duty Heat Gun Kit

This heat gun is ideal for stripping paint and varnish, removing decals, shrinking wire wraps, loosening fittings, and thawing pipes. It features three heat settings to accommodate a wide variety of jobs and a superior coil design that heats materials more quickly.

Overview

Professional Performance Heat Gun

This heavy-duty 2000W heat gun is engineered for versatile applications, ranging from stripping paint and varnish to bending plastics and thawing frozen pipes. Featuring precise temperature and airflow adjustments, it allows users to tailor the tool to specific material requirements effectively. The ergonomic design and included four-nozzle kit ensure comfortable handling and adaptability for various professional and DIY projects.

Technical Specifications

Model	PLD2000	PLD2000S
Voltage	220V 50HZ	110V 60HZ
Power	2000W	1500W
Temperature	I: 50~450°C II: 90~600°C	I: 50~450°C II: 90~600°C
Air Flow	I: 250L/M II: 500L/M	I: 250L/M II: 500L/M
Product Level	Semi-Pro
