Overview

Professional Grade Hot Air Gun

This 2000W hot air gun is designed for precision and versatility, making it an essential tool for professional applications such as paint removal, plastic forming, and heat shrinking. Featuring a digital LCD display and continuous temperature adjustment, it offers exceptional control for various tasks. The ergonomic soft-grip design and stable base ensure comfort and safety during both handheld and stationary operation.

Technical Specifications

Power Output	2000 W
Voltage/Frequency	230V~50Hz
Cable Length	2 m
Plug Type	VDE

Performance Metrics

Operational Performance

50 °C Setting I Temp	600 °C Setting II Max Temp	500 L/min Max Airflow
