

2000W Portable Inverter Generator with Parallel Capability

This portable inverter generator delivers 2000 watts of power. It can be connected in parallel with a second unit to increase power output.

Product Overview

Portable Power Solution

This 2000W portable inverter generator is engineered for reliable, clean power delivery, making it an ideal choice for sensitive electronics and outdoor applications. Featuring advanced inverter technology, it ensures stable voltage output while maintaining exceptional fuel efficiency and low noise levels. Its lightweight, compact design and integrated handle provide superior portability, while robust safety features like overload protection ensure dependable operation.

Electrical Performance

Power Output

1.6 kW

Rated Power

2 kW

Max Power

Rated Voltage

120V / 60Hz

DC Output

12V, 5A

Engine & Fuel

Engine Details

- Type: 4-stroke, OHV, Forced Air-cooled
- Displacement: 105.6cc
- Starting System: Recoil Start

Fuel Tank Capacity

3.2 L

Run Time at Rated Power

3.2 hours

Physical & Design

Weight (G.W / N.W)

23 kg / 21.3 kg

Dimensions

550 x 315 x 460 mm

Sound Power Level

71 dB(A)

Key Features

Key Advantages

Stable Voltage Output • Low Noise Operation • High Fuel Efficiency • Overload Protection • Lightweight Design • Moisture Resistant

Logistics

Container Load Capacity

Container Type	Quantity
20' Container	360 pcs
40' Container	755 pcs
40' HQ Container	755 pcs
