

2000W Pure Sine Wave Power Inverter

This 2000W pure sine wave power inverter features high reliability and efficiency. It converts DC power to AC power for solar photovoltaic systems and other applications.

ADDITIONAL IMAGES

Overview

High-Performance Pure Sine Wave Inverter

This 2000W pure sine wave power inverter is engineered for reliability and high efficiency in demanding applications. Featuring intelligent design and robust protection functions, it ensures stable AC power conversion from DC sources. Its compact, low-weight build includes advanced thermal management, making it an ideal solution for solar photovoltaic systems and mobile power requirements.

Technical Specifications

Rated Power Output

2000 W

Continuous Output

Key Features

- Pure sine wave output
- Isolated output
- Soft start technology
- Low interference design
- Built-in cooling fan

Safety & Compliance

Protection Systems

Low Voltage Alarm • Low Voltage Protection • Over Voltage Protection • Overload Protection • Short Circuit Protection • Over-temperature Protection

Certifications

CE, RoHS, ISO 9001, SGS

Applications

Typical Applications

Category	Examples
Mobile & Computing	Mobile phones, Tablet computers
Automotive/Electronics	Automotive electronics, CD players
Appliances	Televisions, Fans, Electric shavers
General	Cameras, Lighting
