Professional Heat Gun Kit

This 2000W variable temperature heat gun is a versatile tool designed for a wide range of professional and DIY applications. It features precise temperature control and dual fan settings, making it ideal for tasks such as paint stripping, varnish removal, decal removal, shrinking wire wraps, loosening fittings, and thawing pipes. Built with an ergonomic soft-grip design and constant heat control, it ensures comfortable and efficient operation for extended periods.

Technical Specifications

Power Output	2000 W
Voltage	220-240V
Frequency	50 Hz

Performance Metrics

Detailed view of temperature and airflow settings for the heat gun.

Operating Settings

Setting	Temperature Range	Air Flow
I	50°C - 600°C	250 L/M
II	50°C - 600°C	500 L/M

Features

Key Features

- LED indicator light
- Constant Heat Control for continuous working
- Over-heat protection
- High stability for stationary use
- Ergonomic soft-grip handle

Common Applications

Paint Stripping, Varnish Removal, Decal Removal, Shrink Wrapping, Pipe Thawing
