

2006 Accord Tail Light Assembly

This tail lamp assembly is designed for the 2006 Honda Accord. It features a red lens for the brake and turn signal lights, and a clear lens for the reverse light.

Product Overview

2006 Accord Tail Light Assembly

This tail light assembly is precision-engineered as a direct replacement for the 2006 Honda Accord, ensuring a seamless fit and straightforward installation process. It features a high-visibility design with a red lens for brake and turn signals, complemented by a clear lens for reverse illumination. Built to meet or exceed original equipment standards, this assembly utilizes LED technology to provide reliable performance, enhanced brightness, and long-lasting durability for your vehicle's rear lighting system.
