

200A Portable Welder Generator

This is a versatile welder and generator combination unit. It offers a welding current of 200A at 35% duty cycle and provides 4 KVA of power at 220V or 110V.

Overview

Versatile 200A Welder & Generator Combo

The HEW 200DC is a high-performance, dual-purpose unit designed to meet the demanding needs of professional job sites. It functions seamlessly as both a powerful 200A DC welder and a reliable 4 KVA power generator, providing flexibility for remote construction and repair tasks. Built to international standards, it features robust power outlets and stable output for consistent performance in various industrial environments.

Performance Highlights

Key Performance Metrics

200 A

Max Welding Current

4 KVA

Generator Power

220 V

Standard Voltage

Welding Specifications

Welding Duty Cycle

Current (A)	Duty Cycle (%)
200	35%
170	60%

Open Circuit Voltage: 22-28V

Generator Specifications

Power Output Details

- 4 KVA at 220V (18.2A)
- 4 KVA at 110V (36.4A)
- Frequency: 50-60Hz

Interface & Safety

Power Outlets

- CEIRSIEC 32A-6h/24V-IP44
- Type RS-323K
- 2P+E Configuration

Compliance & Protection

CE • IEC60309-1 • IEC60309-2 • IP44
