Overview

Versatile Dual-Sport Performance

This 200cc dual-sport motorcycle is engineered for both daily commuting and off-road exploration, featuring a design inspired by the agility of ancient pterosaurs. Its lightweight frame and robust air-cooled engine provide a balance of power and fuel efficiency across diverse terrains. With advanced LED lighting and a humanized display interface, it offers a modern riding experience focused on safety and clear information.

Performance & Engine

Engine Performance

200 cc

Displacement

Cooling System

Air-cooled

Engine Characteristics

Reliable Power, Fuel Efficient, High Torque

Design & Chassis

Chassis Features

- Long-travel suspension
- Sturdy cradle frame
- Knobby high-traction tires
- Durable bodywork

Design Philosophy

Light off-road theme with concise appearance and smooth lines

Frame Design

Cradle design for improved off-road safety

Safety & Electronics

Lighting Configuration

- LED front light
- Fuel tank wing board side lamps
- Automobile-level LED tail lamp
- Cellular reflector indication lamps

Instrumentation

Eye-catching display interface with clear traffic information

Braking

Responsive braking system

Technical Specifications

Application

On-Road • Off-Road • Commuting • Recreational

Terrain Capability

Suitable for complicated roads and challenging surfaces
