

200cc Gasoline Powered Freight Tricycle

This gasoline tricycle features a durable frame and strong loading capacity for demanding use. Its high-power motor, enhanced headlamp, and reinforced steel pipe construction provide reliable climbing ability and long endurance.

ADDITIONAL IMAGES

Product Overview

The tricycle features a reinforced steel frame and a high-capacity cargo bed for industrial use.

Heavy-Duty 200cc Freight Tricycle

This gasoline-powered freight tricycle is designed for robust performance and efficient cargo transport in demanding commercial environments. Featuring a high-power 200cc water-cooled engine and a reinforced steel frame, it offers exceptional climbing ability and long-range endurance. The spacious freight car and heavy-duty suspension system make it an ideal solution for businesses requiring reliable, cost-effective transportation for heavy loads.

Performance Highlights

Key Performance Metrics

200 cc

Displacement

11 kW

Max Power

1 T

Load Capacity

50 km/h

Max Speed

Engine & Transmission

Engine Type	TF200 compulsive water-cooled engine
Rated Power	11 kW/7500rpm
Transmission	5+1 Speed
Fuel Tank Capacity	16 L

Dimensions & Capacity

Overall Size	3580 x 1380 x 1750 mm
Rear Freight Car Size	2000 x 1300 x 320 mm
Wheelbase	2360 mm
Wheel Track	1270 mm

Chassis & Safety

Brake Mode (F/R)	Front drum / Rear oil brake
Front Suspension	!50with stiffener
Rear Suspension	9 pieces 70 leaf spring
Rear Axle	!60full floating with water cooling

Electrical & Tires

Battery Capacity	12V 9Ah maintenance-free
Tire Size (F/R)	5.00-12 / 5.00-12

Logistics

Tricycles prepared for international shipping in CKD format and displayed at trade exhibitions.

Loading Quantity (CKD)	36 sets per 40HQ container
Shipping Features	CKD Packaging, International Shipping, Export Standard
