

200cc Off-Road Motorcycle

This off-road motorcycle features a high-performance 200cc oil-cooled engine for reliable power. It is designed with high ground clearance and a sturdy frame for challenging terrains.

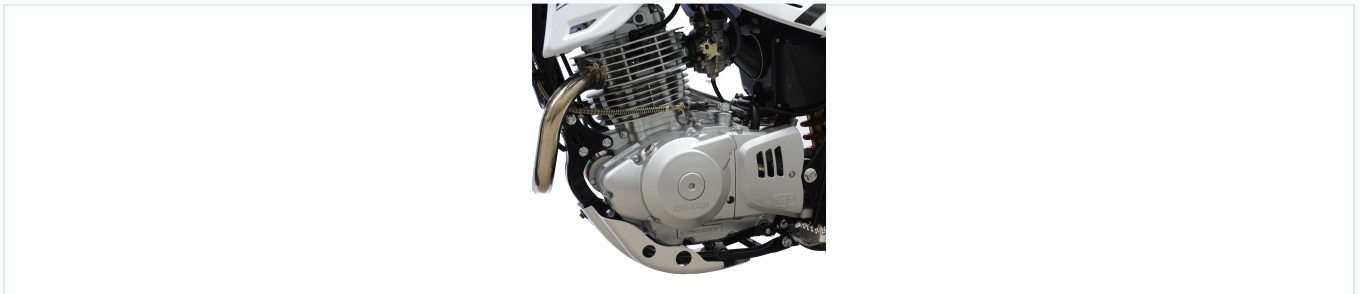

Overview

Rugged 200cc Off-Road Performance

This versatile 200cc off-road motorcycle is designed for both recreational trail riding and practical utility. Featuring a durable oil-cooled engine, high ground clearance, and an advanced wave-like braking system, it offers reliable performance across various terrains. Modern touches like the digital speedometer and energy-efficient LED lighting ensure both rider convenience and enhanced safety.

Engine & Performance

A reliable and proven 200cc oil-cooled engine, built for longevity and consistent power.

Engine Classification	200cc Oil-cooled, Single-cylinder
Fuel System	Carburetor
Fuel Capacity	10.6 L

Dimensions

Physical Dimensions (LxWxH)	2200x830x1180 mm
Wheelbase	1405 mm
Ground Clearance	240 mm
Seat Height	910 mm
Dry Mass	123 kg

Technical Features

Clear and functional digital instrument panel for easy monitoring during rides.

Front wheel setup featuring durable spoked rims and an advanced disc braking system.

Rear wheel assembly with knobby tire and rear disc brake for superior traction and stopping power.

Construction Details

- Aluminum spoke wheels
- Rear swing arm
- Protective bash plate

Lighting System

LED Turning Lights, LED Tail Lamp, Headlight

Braking System

Front and rear wave-like brake discs

Instrument Cluster

Digital speedometer with analog tachometer
