

200cc Street Motorcycle

This street motorcycle features a 200cc, water-cooled engine. It is designed for reliable performance and comfortable handling on city streets.

Overview

A versatile street bike designed for urban commuting and recreational riding, featuring a robust engine and responsive handling.

Performance and Design

This 200cc street motorcycle is engineered for urban commuting and recreational riding, offering a perfect balance of performance and fuel efficiency. It features a robust, water-cooled four-stroke engine and a responsive 6-gear transmission system for smooth handling. With its modern styling, comfortable seat height, and durable aluminum alloy wheels, this bike is designed to provide a reliable and enjoyable riding experience.

Engine & Performance

Engine Specifications

198 mL

Displacement

12.5 kW

Max Power

17 N.m

Max Torque

Engine Details

- Vertical single-cylinder
- Water-cooled
- Four-stroke
- Compression Ratio: 11:1
- Bore x Stroke: 65.5 x 58.8 mm
