

200kg Wool Washing Machine

This 200kg wool washing machine is designed for efficient and thorough cleaning of wool and other delicate fabrics. It features a user-friendly control panel for easy operation and precise adjustment of washing parameters.

Overview

Industrial Wool Washing Solution

The BX series industrial washing machine is designed for high-capacity cleaning in commercial environments like hotels, laundries, and textile plants. Featuring a robust horizontal structure with a stainless steel drum and frame, this semi-automatic machine offers high efficiency, low noise operation, and reliable performance. It supports both steam and electrical heating options, making it a versatile choice for various industrial fabric care needs.
