

200kW Diesel Generator Set

This diesel generator set delivers reliable power generation for diverse applications. Its robust diesel engine and efficient alternator provide a stable power supply, complemented by a control panel for performance monitoring.

Overview

Reliable Power Generation Solution

This 200kW diesel generator set is engineered for consistent and dependable power delivery in demanding environments. Designed with a robust engine and an efficient alternator, it provides a stable power supply suitable for backup, prime, or mobile power applications. The unit is built on a sturdy base for stability and ease of installation, ensuring long-lasting performance.

Technical Features

Key Design Features

- Robust diesel engine
- Efficient alternator
- Integrated control panel for monitoring
- Sturdy base frame for stability

Suitable Applications

Backup Power, Prime Power, Mobile Power
