

# 200mm 550W Power Saw with Adjustable Cutting Angle

This power saw has a 550W motor and an IP54 rating. Its cutting angle is adjustable from 0° to 45°.

## Product Overview

### High-Performance 200mm Power Saw

This versatile 550W power saw is engineered for precision and durability in professional work environments. Featuring an adjustable cutting angle from 0° to 45°, it allows for flexible operations including both 45° and 90° cuts. The robust construction and IP54 rating ensure reliability and protection against environmental factors, making it an essential tool for demanding tasks.
