

200W Beam Moving Head Stage Light

This 200W beam moving head light is designed for entertainment and stage lighting. It projects a focused beam and offers dynamic movement and effects suitable for concerts, events, and theatrical productions.

Overview

Professional 200W Beam Moving Head Light

This high-performance moving head fixture is designed for professional stage and event lighting applications. Utilizing a Philips MSD Platinum 5R lamp, it delivers an intense 8000K color temperature for crisp, powerful beams. With advanced features like an 8-facet prism, motorized focus, and comprehensive color and gobo wheels, it offers versatile lighting effects suitable for concerts, theatrical productions, and large-scale events.
