

200W Evaporative Air Cooler with 25-30L Water Tank

This air cooler features a large 25-30L water tank and an ionizer for air purification. It includes a clear LCD display and remote control for convenient operation, powered by a 200W motor.

Product Overview

Professional Evaporative Air Cooling Solution

This high-performance evaporative air cooler is designed to provide efficient cooling and air purification for commercial or large indoor spaces. Featuring a powerful 200W motor and a generous 25-30L water tank, it ensures long-lasting operation with minimal refilling. Equipped with an integrated ionizer for improved air quality, this unit offers advanced control via a built-in LCD interface and a convenient remote.
