Product Overview

High-Efficiency Monocrystalline Module

This 200W monocrystalline solar module features a sleek, all-black design, making it an ideal choice for both residential and commercial applications where aesthetics matter. Engineered for reliability, the panel is constructed with high-quality cells designed to withstand harsh environmental conditions. It is fully compatible with both grid-tied and off-grid solar power systems, ensuring optimal energy production across various climates.

Technical Specifications

Rated Power Output

200 W

Power Output

Cell Technology

Monocrystalline

Design Features

All-Black Design, Residential Compatible, Commercial Compatible, Weather Resistant

Logistics & Ordering

Accepted Payment Terms

- T/T (30% advance, balance before dispatch)
- FOB/CIF (30% advance, balance against BL copy)
- Irrevocable L/C at sight (for amounts over \$50,000)
- Western Union (for amounts under \$2,000)

Sample Availability

Samples are available upon price confirmation to verify quality. A sample express fee is charged initially, which is refundable once order quantities exceed the minimum order quantity (MOQ).

Typical Lead Time

7 to 10 working days after advanced payment
