

200W Single-Gang Dimmer Wall Switch with Hanger

This single-gang dimmer switch provides smooth and precise dimming control. It is designed for wall mounting and includes a hanger for easy installation.

Product Overview

Elegant Dimming Control

This single-gang 200W dimmer wall switch features a classic, minimalist design with a large push-button interface that provides a sophisticated touch experience. Engineered for safety and durability, it utilizes fire-resistant PC materials and high-conductivity silver contact terminals. Ideal for homes, hotels, and commercial spaces, this versatile switch supports a wide range of lighting types and offers a flexible modular system for customized installation.
