Product Overview

Reliable Silent Power Solution

This 20kVA (16kW) silent diesel generator is engineered for consistent and dependable power delivery in noise-sensitive environments. Featuring a robust sound-attenuated canopy, it minimizes noise pollution while maintaining high performance for both prime and standby applications. The unit is equipped with intelligent digital control systems and comprehensive safety protections, ensuring reliable operation for commercial, industrial, or residential backup needs.

Performance Ratings

Prime Power

20 kVA
Prime Power

16 kW
Prime Power

Overload Capability

10% overload power available for 1 hour in 12

Technical Specifications

Operating Environment

Parameter	Limit
Max Ambient Temperature	40°C
Max Relative Humidity	90%
Max Altitude	1000m

Alternator Details

Single bearing, Insulation Class H, IP23 Protection

Standard Configuration

Standard Equipment

- Industrial water-cooled diesel engine
- Steel base fuel tank with anti-vibration mounting
- 8-12 hours built-in fuel tank capacity
- 9 dB muffler exhaust system
- Free-maintenance battery
- Flexible fuel lines and lube oil drain cock

Quality & Testing

Factory Testing Protocols

Parts faults testing, Fuel tank pressure testing, Bolt torque testing, Painting thickness testing, Voltage/Insulation testing, Noise testing, Loading Testing (25%-110%)

Support & Service

Warranty Period

1 year or 1000 running hours (whichever comes first)

Standard Delivery Time

25 days
