Product Overview

High-Performance Cordless Grinding

Engineered for professional demands, this cordless angle grinder features a high-efficiency brushless motor that delivers three times the lifespan of standard models and requires zero maintenance. The tool is designed for comfort and extended use, featuring a soft-grip handle and an integrated power display window for real-time monitoring of battery status. With built-in ECP protection, the unit ensures consistent performance and extended working life across various cutting and grinding applications.

Technical Specifications

Blade Compatibility

Accessory Type	Diameter
Cymbal Wheel	100mm
Diamond Saw Blade	100mm
Cutting Wheel	100mm

Rated Voltage	18 V
No-load Speed	0-1000/7500 r/min
Compatible Wheel Diameter	100 mm

Power & Battery

Available Battery Capacities

- 4.0 Ah
- 5.0 Ah
