

20V Cordless Brushless Circular Saw with 120mm Blade

This 20V cordless circular saw is equipped with a brushless motor. Its 120mm blade ensures precise cuts on wood and various other materials.

Overview

Professional Performance

This 20V cordless circular saw is engineered for precision and efficiency, featuring a high-performance brushless motor that delivers reliable power for cutting wood and various materials. Designed for both professional trade use and demanding DIY projects, it offers the mobility of cordless operation. The compact 120mm blade configuration ensures clean, accurate cuts while maintaining maneuverability.

Technical Specifications

Battery Capacity

4 Ah

Capacity

Motor Technology	Brushless
Voltage	20 V
Blade Diameter	120 mm

Key Features

Power Source

Li-ion Battery • Cordless

Suitable For	Professional Use, DIY, Woodworking
