Product Overview

High-Performance Cordless Drilling

This professional-grade 20V brushless drill is engineered for heavy-duty applications, offering superior power and extended motor life. Featuring an all-metal gearbox and a 13mm keyless chuck, it provides the durability required for demanding job sites. The ergonomic soft-grip handle and integrated LED work light ensure comfort and precision, making it an ideal choice for both professional contractors and serious DIY enthusiasts.

Technical Specifications

Performance Metrics

20 V

Voltage

80 N.m

Max Torque

13 mm

Chuck Size

No Load Speed

- 0-450 RPM (Low)
- 0-1600 RPM (High)

Motor Type

Brushless 4820#

Features & Benefits

Maximize efficiency with our Battery Share Platform, allowing one battery to power multiple tools in the 20V brushless system.

Battery Compatibility

Battery Share Platform • 20V System Compatible

Key Features

Brushless Motor, Variable Speed, LED Work Light, Soft Grip Handle, Lock-on Switch, All-Metal Gearbox
