

20V Cordless Brushless Impact Drill

This 20V cordless impact drill features a brushless motor for increased power and longer life. Its variable speed settings and multiple clutch positions provide precise control for a variety of applications.

Product Overview

Professional Performance

This 20V Cordless Brushless Impact Drill is engineered for demanding drilling and fastening applications. It features advanced brushless motor technology, which provides increased power, extended runtime, and a longer motor lifespan compared to traditional brushed motors. The compact, lightweight design ensures superior maneuverability, while the integrated LED work light improves visibility in low-light conditions.

Technical Specifications

Voltage	20 V
Battery Capacity	2 Ah
Motor Type	Brushless
Battery Technology	Lithium-ion

Features

Core Features

- Memory-free battery technology
- Low self-discharge rate
- Integrated LED work light
- Variable speed settings
- Multiple clutch positions

Performance Highlights

20 V

Voltage

2 Ah

Battery Capacity
