Overview

Professional Cordless Performance

This 20V cordless jig saw features a high-efficiency brushless motor, delivering extended runtime and superior power for demanding cutting applications. Designed for versatility and ease of use, it includes a 4-stage pendulum action and variable speed control to handle diverse materials with precision. The ergonomic soft-grip handle ensures comfort during extended operation, making it an essential tool for professional woodworking and metalworking tasks.

Technical Specifications

High-performance cordless operation powered by a 20V lithium-ion battery system.

Voltage	20 V
No-Load Speed	0-2600
Stroke Length	26 mm
Cutting Capacity (Wood)	135 mm
Cutting Capacity (Steel)	10 mm

Key Features

Ergonomic design with soft-grip handle for improved control and reduced user fatigue during operation.

Motor Type

Brushless

Pendulum Action

4

Control Features

Variable Speed, Tool-free Blade Change, Adjustable Bevel, Soft Grip Handle
