

20V Cordless Brushless Rotary Hammer

This 20V cordless brushless rotary hammer is designed for drilling and chiseling applications. The brushless motor provides enhanced efficiency and durability, while the cordless design offers freedom of movement.

Product Overview

High-Performance 20V Brushless Rotary Hammer

This 20V cordless rotary hammer is engineered for professional-grade drilling and chiseling in demanding materials like concrete, wood, and metal. Featuring a high-efficiency brushless motor, it delivers 2.2J of impact energy while ensuring extended runtime and tool longevity. The versatile 4-function design and SDS-Plus chuck system provide the flexibility and reliability needed for complex construction and renovation tasks.

Performance Metrics

Key Performance Metrics

2.2 J Impact Energy	1420 rpm No-Load Speed	20 V Voltage
-------------------------------	----------------------------------	------------------------

Technical Specifications

Motor Type

48 Brushless Motor

Chuck System

SDS Plus

Charging Time

1 hour

Capabilities

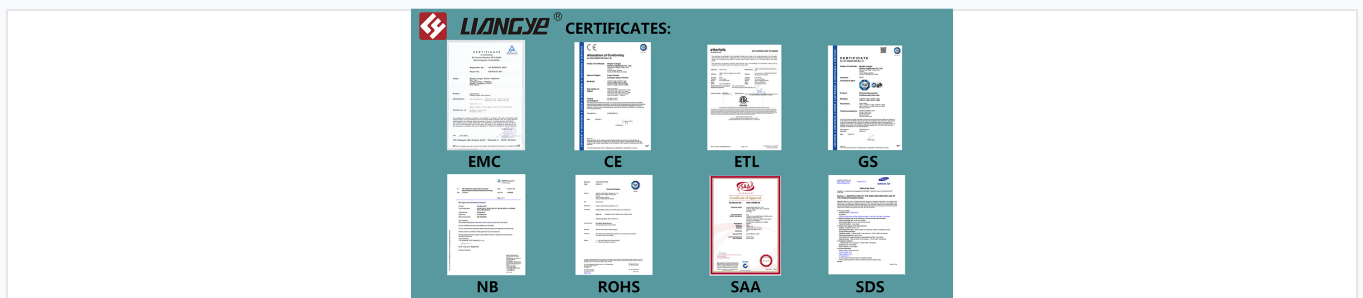

Operating Modes

- Drill
- Chiseling
- Hammer Drill
- Chisel Fixing

Maximum Drilling Capacity

Material	Diameter (mm)
Wood	28
Concrete	22
Metal	13

Compliance & Quality

Our products meet rigorous international standards including CE, GS, ETL, and RoHS compliance.

International Certifications

CE, EMC, ETL, GS, ROHS, SAA, SDS, NB
