

20V Cordless Drill Driver with 4Ah Lithium-ion Battery

This cordless drill driver is powered by a 20V lithium-ion battery with a 4Ah capacity. It is suitable for a range of tasks, offering variable speed control and multiple torque settings for precision and control.

Product Overview

Professional Cordless Drill Driver

This versatile 20V cordless drill driver is engineered for efficiency and reliability in professional applications. Featuring a high-capacity 4Ah lithium-ion battery, it ensures extended run times and consistent performance for demanding tasks. The tool includes advanced features like a two-speed powder metallurgy gearbox, quick-change chuck design, and an integrated LED work light for optimal visibility in dark environments.

Power & Battery

Maximum Voltage	20 V
Nominal Voltage	18 V
Battery Capacity	4 Ah
Battery Chemistry	Lithium-ion
Quick Charge Time	1 hour

Features

Key Features

- Built-in LED work light
- Short circuit protection
- Battery capacity indicator
- Two-speed powder metallurgy gearbox
- Belt clip for high-altitude operation
- Multifunctional quick-change design
- Spindle lock for easy bit changes

Safety & Protection

Short Circuit Protection, Battery Capacity Display
