

20V Cordless Workshop Fan

This 20V fan is designed for efficient air circulation and cooling. Its durable construction includes a protective grill and adjustable tilt, with a compact design for portability, ideal for workshops, garages, and job sites.

Product Overview

Professional Cordless Air Circulation

This 20V cordless workshop fan is engineered for high-performance air circulation in demanding environments like garages and job sites. Featuring a robust 9-inch design, it offers dual speed settings and a fully adjustable 360-degree rotating head to direct airflow exactly where needed. With versatile hanging options and a stable rubberized base, this unit provides reliable, portable cooling solutions for any professional workspace.

Technical Specifications

Rated Voltage	DC 20V
Fan Diameter	9 inch

Performance Metrics

Air Flow Performance

450 CFM
High Speed

280 CFM
Low Speed

No Load Speed

- 1200 rpm
- 1700 rpm

Design & Usability

Head Rotation	360 degrees
Mounting Options	Hanging methods, Rubber stand
Safety Features	Yes
