

# 20V Lithium-Ion Cordless Garden Tool System

This cordless garden tool system operates on a single 20V lithium-ion battery. The interchangeable battery can power a chainsaw, hedge trimmer, leaf blower, and grass trimmers.

## System Overview

### Universal 20V Battery Ecosystem

This cordless garden tool system streamlines yard maintenance by utilizing a single, interchangeable 20V lithium-ion battery across all compatible tools. This design reduces clutter, minimizes storage needs, and saves costs by allowing users to invest in just one battery and charger system for multiple gardening implements.

Power Technology	Lithium-ion, 20V Cordless
