

20V Lithium-Ion Cordless LED Work Light

This 20V lithium-ion LED work light is a portable lighting solution for various work environments. The cordless design and adjustable stand provide flexible positioning and bright, uniform illumination.

Overview

Professional Cordless Jobsite Lighting

This 20V Lithium-Ion Cordless LED Work Light is a portable and powerful lighting solution designed for demanding work environments. Featuring a high-intensity LED chip, it delivers bright and uniform illumination to enhance visibility in dimly lit areas. Its rugged, explosion-proof construction and stable chassis ensure durability, while the 360-degree rotation allows for flexible, precise positioning on any job site.

Performance

Brightness

1500 LM

Luminous Flux

Run Time by Battery Capacity

Battery Capacity	Run Time
2.0Ah	2 hours
4.0Ah	4 hours

Technical Specifications

Battery Voltage	20 V
Rotation Angle	360 °
Machine Weight	1.9 kg

Features

Key Features	Cordless Design, Explosion-proof Glass, Rubber Overmould Handle, Stable Chassis, High-Intensity LED
