

2.1 Channel Bluetooth Computer Speaker System

This 2.1 channel speaker system provides powerful audio in a wooden cabinet. It features Bluetooth connectivity, USB/SD interface and manual controls.

Product Overview

Immersive Audio Experience

This 2.1 channel speaker system is engineered to deliver a rich, immersive audio experience suitable for music, movies, and gaming. Featuring a distinct wood and bronze finish, it combines aesthetic appeal with functional design. The system includes a side-mounted subwoofer for enhanced bass and a remote control for effortless operation.
