

2.1 Channel Computer Speaker System with Subwoofer

This 2.1 channel computer speaker system includes a subwoofer and two satellite speakers. It is designed to provide enhanced audio performance with clear highs and deep bass.

Product Overview

High-Performance Audio Experience

This 2.1 channel speaker system is engineered to deliver a balanced audio profile, combining deep, resonant bass from the dedicated subwoofer with crisp, clear highs from the satellite units. With a robust 60W output, it provides substantial power for computer setups, home offices, or multimedia entertainment. The system offers versatile connectivity options, including Bluetooth, USB, and SD playback, ensuring seamless integration with your modern digital devices.

Technical Specifications

Total Output Power

60 W

Output Power

Model Number

EM-3096FST

Speaker Driver Configuration

6.5" Subwoofer + 3" Satellite x 2

Connectivity & Features

Control Features

- Remote Control
- LED Display Interface

Connectivity

Bluetooth, AUX IN, USB Playback, SD Playback, FM Radio
