

2.1 Channel Computer Speaker System with Subwoofer

This 2.1 channel computer speaker system is designed for immersive audio experiences. It features a subwoofer for deep bass and two satellite speakers for clear highs and mids.

Product Overview

Immersive Audio Experience

This 2.1 channel computer speaker system is engineered to deliver a balanced audio profile, combining a dedicated subwoofer for deep, resonant bass with two satellite speakers for crisp mids and highs. Designed for versatility, the system supports multiple playback methods including Bluetooth, USB, SD card, and AUX input, making it an ideal choice for gaming, music, and multimedia desktop setups. The integrated LED display and remote control provide convenient, user-friendly management of your audio environment.
