

## 2.1 Channel Computer Speaker System with Subwoofer

This 2.1 channel computer speaker system delivers balanced audio with deep bass and clear highs. The system includes a subwoofer and two satellite speakers, compatible with computers, laptops, and mobile devices via a 3.5mm audio input.

### Product Overview

#### Immersive 2.1 Channel Audio

The EM-3092FT is a versatile 2.1-channel computer speaker system designed to provide a balanced and immersive audio experience. Combining a dedicated subwoofer for deep, resonant bass with two satellite speakers for crisp highs, this system is ideal for desktop setups and multimedia entertainment. With multiple connectivity options, including Bluetooth, USB, and SD playback, it offers seamless integration with various audio sources.
