

2.1 Channel Speaker System with Bluetooth, USB, SD, FM, and LED Display

This 2.1 channel speaker system delivers immersive audio via a dedicated subwoofer and two satellite speakers. It features Bluetooth connectivity, USB and SD card slots, and an FM radio tuner.

Product Overview

Immersive Audio Experience

This 2.1 channel speaker system is engineered to provide a balanced and immersive audio experience, featuring a dedicated subwoofer for deep bass and two satellite speakers for clear highs. Designed for versatility, it supports wireless Bluetooth streaming alongside direct playback options via USB and SD card slots. With an integrated FM radio tuner and a convenient remote control, this system is an ideal audio solution for diverse professional or personal environments.
