

## 2.1 Channel Speaker System with Subwoofer

This 2.1 speaker system includes a wooden subwoofer with a 5.25 inch bass unit and glossy plastic satellites. It is compatible with multiple audio sources and includes an infrared remote control.

### Overview

#### Immersive 2.1 Channel Audio Experience

This 2.1 channel speaker system is engineered to deliver a balanced and immersive audio experience, combining a dedicated 5.25-inch subwoofer for deep, resonant bass with two satellite speakers for crisp mid and high-frequency reproduction. Designed with a sleek, modern aesthetic and a glossy finish, it integrates seamlessly into office or home entertainment setups. The system is highly versatile, offering compatibility with a wide range of audio sources including computers, smartphones, and gaming consoles for professional or personal use.
