

2.1 Channel Speaker System

This 2.1 speaker system is engineered for immersive audio. It includes a subwoofer for deep bass and two satellite speakers for crisp highs and mids.

Overview

Immersive Audio Performance

This 2.1 channel speaker system is engineered to deliver a balanced audio experience, combining deep bass from a 5-inch subwoofer with crisp highs and mids from dedicated 3-inch and 2-inch tweeter units. Designed for versatility and clarity, the system offers robust power output and high signal-to-noise performance suitable for various multimedia applications. Its compact satellite speakers and powerful subwoofer make it an ideal choice for desktop or home entertainment setups.
