

21-Inch Gasoline Powered Lawn Mower

This 21-inch lawn mower has a 530mm cutting width, suitable for maintaining larger residential lawns up to 3000m². It is designed for cost efficiency.

Overview

Robust Utility Mower

The 21-inch Utility Lawn Mower is a robust and efficient machine designed for maintaining residential lawns. It features a durable steel deck construction, ensuring longevity and resistance to wear and tear. Powered by a reliable gasoline engine, it provides ample power for cutting through various grass types, while the adjustable cutting height allows users to customize the grass length to their preference.
