Product Overview

High-Performance Outboard Engine

This 212cc outboard shaft engine is engineered for efficiency and reliability, making it an ideal choice for small boats and watercraft. Featuring a robust four-stroke gasoline engine, it provides consistent power for maneuverability in various water conditions. The unit is built with a durable, corrosion-resistant metal shaft and includes an ergonomic throttle handle for precise control, offering a versatile solution for recreational or professional boating needs.

Technical Specifications

Engine Displacement	212 cc
Engine Type	Four-stroke gasoline engine
Propeller Configuration	Three-blade design optimized for thrust

Construction & Features

Construction Materials	Metal tubing, Corrosion-resistant coating
Control System	Handlebar grip with integrated throttle control
Mounting Hardware	Yes
