

2.1W 220V Shaded Pole Motor

This is a single-phase asynchronous shaded pole motor. It operates at 220V at 50Hz, consumes 2.1W, and has a rotational speed of 1800 RPM with insulation class H.

Product Overview

Versatile Shaded Pole Motor

This single-phase asynchronous shaded pole motor is engineered for reliable, low-noise operation in light-load applications. Designed with a 2.1W power rating and a robust build, it is an ideal solution for a variety of household appliances and medical equipment. The motor supports customization and meets international quality standards, ensuring compatibility and safety for diverse industrial and consumer needs.

Technical Specifications

Power Consumption

2.1 W

Power Rating

Rated Voltage	220 V
Rotational Speed	1800 r/min
Insulation Class	H
Frequency	50 Hz

Compliance and Usage

Suitable Applications

- Dish-washing machines
- Refrigerators
- Ovens
- Fryers
- Heaters
- Exhaust fans
- Air conditioners
- Microwave ovens
- Medical equipment

Certifications	UL, VDE, TUV, 3C
Customization Available	Yes
