

220 HP Lumbering Bulldozer

The SD22F lumbering bulldozer is designed for forestry applications and features a specialized ROPS cab. It is equipped with wide tracks and a mechanical winch for enhanced trafficability and self-rescue capabilities in rainforests and forest farms.

Overview

Equipped with special lumbering ROPS cab for high safety and performance.

Designed for Forestry Excellence

The 220 HP Lumbering Bulldozer is specifically engineered for demanding forestry environments and challenging terrain. Equipped with a specialized lumbering ROPS cab and wide 610mm tracks, it provides superior trafficability and self-rescue capabilities for skidding and traction transport. This machine is highly versatile, featuring a standard lumbering blade that efficiently clears bramble and obstacles to maintain progress in rainforests and forest farms.

Performance

Robust design tailored for earth moving and forestry road clearance.

Rated Horsepower

162 kW
Rated Power

Engine Model	Chongfa NT855-C280S10
Gradeability	30 °

Operations

Dozing Capacity	6.4 m3
Blade Height	1315 mm
Ripper Type	3-shank ripper
Max. Digging Depth	666 mm

Undercarriage

Roller Configuration <ul style="list-style-type: none">• 2 carrier rollers per side• 6 track rollers per side	
Track Shoe Width	610 mm
Ground Pressure	0.077 Mpa

Dimensions

Overall Dimensions	6790 x 3725 x 3480 mm
Min. Turning Radius	3.3 m

Features

Advanced hydraulic system ensures precise control and operator comfort.

Specialized Features	ROPS Cab, Mechanical Winch, Self-rescue Function, Single-grouser Track
