

## 2200W 220V 400mm Mitre Saw

This 2200W 220V 400mm mitre saw is a powerful and precise cutting tool. It delivers consistent performance and efficient cutting through various materials.

### Product Overview

#### High-Precision Cutting Performance

This 2200W Mitre Saw is engineered for professional-grade cutting across aluminum, wood, and PVC pipe materials. Featuring a robust motor and a specialized belt drive system, it offers both high processing accuracy and quieter operation during heavy-duty tasks. The advanced chip management design ensures a cleaner workspace by minimizing dust accumulation.

### Technical Specifications

#### Motor Power

**1100 W**  
Rated Power

|                    |          |
|--------------------|----------|
| No-Load Speed      | 5500 rpm |
| Saw Blade Diameter | 255 mm   |
| Operating Voltage  | 220 V    |

### Features & Capabilities

#### Key Advantages

- High processing accuracy
- Scientific chip design for dust reduction
- Silent belt drive system

|                      |                          |
|----------------------|--------------------------|
| Compatible Materials | Aluminum, Wood, PVC Pipe |
|----------------------|--------------------------|
