

2200W Angle Grinder for Heavy-Duty Applications

This angle grinder features a powerful 2200W motor. It is designed for heavy-duty cutting, grinding, and polishing across various applications.

Product Overview

Heavy-Duty Performance

This high-performance angle grinder is engineered for demanding industrial tasks including cutting, grinding, and polishing. Powered by a robust 2200W motor, it delivers consistent results in metalworking and construction environments. The design prioritizes user safety and comfort with an ergonomic, rotatable handle and a protective safety guard.

Technical Specifications

Rated Power

2200 W

Power Output

No-Load Speed

6000 min⁻¹

Disc Diameter

230 mm

Features

Handle Design

Rotatable handle for improved control and comfort

Safety Features

Safety Guard, Spindle Lock

Applications

Primary Applications

- Metalworking
- Construction
- Heavy-duty grinding
- Cutting
- Polishing
