

# 2204 Series Agricultural Tractor

The 2204 Series tractor is a versatile machine designed for various farming tasks. It features a powerful engine and heavy-duty tires for optimal traction.

## ADDITIONAL IMAGES

## Overview

### Robust Agricultural Power

The 2204 Series Agricultural Tractor is a versatile and heavy-duty machine engineered for demanding farming environments. Designed for efficiency, it features a powerful engine capable of high torque output, making it ideal for intensive tasks such as plowing, tilling, and hauling. With an ergonomic cabin design, it ensures operator comfort and excellent visibility during long working hours in diverse field conditions.

## Performance & Certification

### Certifications

OECD • EAC • E-mark

### Primary Applications

Plowing, Tilling, Hauling, Heavy-duty operations

## Technical Features

### Performance Metrics

**2204**  
Series Model

### Design Highlights

- Powerful high-torque engine
- Heavy-duty tires for optimal traction
- Ergonomic cabin with excellent visibility
- High-flow hydraulic system
- Includes front weights for stability
