

220V-230V Synchronous Grill Motor

This 220V-230V synchronous motor is designed for BBQ grills and rotating applications. The motor ensures consistent rotational speed for even grilling.

Product Overview

High-Performance Synchronous Grill Motor

This 220V-230V synchronous motor is engineered specifically for BBQ grills and similar rotating kitchen appliance applications. Designed for reliability and consistent performance, it features a robust construction capable of withstanding high-temperature environments. With a focus on safety and longevity, it includes integrated thermal protection and is built to deliver quiet, stable operation.

Technical Specifications

Voltage	220V-230V AC
Rotation Speed	5 RPM
Power Rating	4.5/3W
Frequency	50Hz/60Hz
Max Temperature Rating	125 °C

Features & Construction

Safety Mechanisms

- Thermal protector with one-shot fuse
- Multi-shot fuse option available
- Robust metal housing

Key Features

Synchronous Design, Thermal Protection, Low Noise, Consistent Rotation

Application

Typical Applications

BBQ Grill • Oven • Rotating Appliances

Model Information

Model Variants

Model	Class
TYZ-50	Class H
KXYZ-1	Class H
