

222 L Multi-Door Refrigerator with Mirror Finish

This multi-door refrigerator features energy-saving technology and a stylish mirror finish. It offers a total net volume of 222 liters, including a deep freezing volume of 52 liters and a variable temperature compartment.

Overview

Bright interior LED lighting for clear food visibility and energy efficiency.

Premium Multi-Door Solution

This 222L multi-door refrigerator combines advanced insulation technology with a sophisticated mirror finish to provide an elegant and energy-efficient solution for modern kitchens. Designed with intelligent temperature management, it features automatic seasonal compensation to ensure reliable cooling throughout the year. Its durable, deep-freezing construction and airtight multi-air bag gaskets ensure that food stays fresh while minimizing power consumption.

Key Features

High-adsorption door gasket ensures an airtight seal to prevent cold air loss.

Key Advantages

Mirror Finish, Energy Saving, Multi-Air Bag Gasket, Smart Temp Control, LED Lighting

Capacity & Performance

Deep-freezing compartment with reinforced piping for faster cooling results.

Performance Metrics

222 L

Net Volume

0.48 Kw.h/24h

Energy Consumption

90 W

Rated Input Power

Volume Distribution

Compartment	Volume (L)
Deep Freezing	52
Variable Temperature	52

Technical Specs

Intelligent temperature transmitter for automatic seasonal performance compensation.
