

223L Capacity Multi-Door Refrigerator

This refrigerator features a multi-door design and provides 223L of storage space. It utilizes energy-saving technology and a multi-air bag door gasket to maintain consistent internal temperature.

Product Overview

223L Multi-Door Refrigerator

This 223L multi-door refrigerator offers an efficient and organized storage solution for fresh and frozen goods. Designed with advanced polyurethane super micro cell-foaming technology, it provides superior insulation for consistent cooling and energy efficiency. The unit features intelligent temperature compensation technology, ensuring reliable operation across varying environmental conditions.

Technical Specifications

Total Net Volume	223 L
Deep Freezing Volume	52 L
Variable Compartment Volume	52 L

Performance

Rated Input Power

90 W

Rated Power

Daily Energy Consumption	0.56 Kw.h/24h
Energy Star Rating	3

Features

The door gasket features a multi-air bag design with strong adsorptive power to effectively prevent cold air leakage.

Key Highlights

Energy Saving, Multi-Air Bag Gasket, Chromic Crystal Tempered Glass, European Style Design, Environmental Temp Transmitter
