

22mm Long Handle Push Button Switch

This 22mm push button switch features a long handle. It is designed for use in various electrical power applications, offering a reliable and durable switching solution.

Overview

Specializing in production of buttons and indicators since 1997

Long handle actuator design for manual operation.

Industrial Control Switch

This 22mm long handle switch is designed for reliable operation in industrial control circuits, including distribution boxes and control cabinets. Constructed with high-grade anti-flam plastic and zinc alloy, it offers durability and efficient performance for manual control, signal indication, and interlocking applications. The unit is engineered to meet rigorous international standards, ensuring safety and compatibility in demanding electrical environments.

Certifications

CE, ISO 9001, RoHS, UL, IEC 60947-5-1

Technical Specifications

Mechanical Life

1000000 cycles
Pushbutton

500000 cycles
Selector Switch

Electrical Life

5000000 cycles
Pushbutton

250000 cycles
Selector Switch

Rated Insulation Voltage	600 V
Conventional Heating Current	10 A
Insulation Resistance	e5M©
Contact Resistance	d25h©
