

2/3 Gastronorm Container Solid Lid

This solid lid is designed for 2/3 size European Gastronorm containers. Constructed from stainless steel, the lid ensures a tight seal to maintain food temperature and prevent spills.

Product Overview

Professional Gastronorm Solution

This solid cover lid is specifically designed for 2/3 size European Gastronorm containers, offering a secure seal to maintain food temperatures and prevent spills. Constructed for durability in commercial environments, it features reinforced corners and a recessed handle for easy lifting and stacking. Its smooth stainless steel surface ensures quick sanitation, making it an essential tool for buffet lines, catering services, and professional food storage.
