

230 HP Crawler Bulldozer

This 230 HP crawler bulldozer features an elevated sprocket and power shift drive. Its modular design simplifies maintenance and the spacious cabin enhances operator comfort.

Overview

High-Performance Crawler Bulldozer

The SHD7 is a robust 230 horsepower crawler bulldozer engineered for heavy-duty earthmoving and construction tasks. Featuring a modular design for simplified maintenance and a spacious cabin for operator comfort, this machine is built for reliability and ease of use. Its semi-rigid suspension and elevated sprocket design ensure excellent traction and stability across demanding terrains.

Key Features

Key Features

Elevated Sprocket, Power Shift Drive, Semi-Rigid Suspension, Hydraulic Controls, Modular Design

Engine

Rated Power

169 kW

Rated Power

Engine Type

Vertical, turbocharged, water cooled

Rated Speed

2100 rpm

Implement Hydraulic System

Hydraulic Flow Rate

194 L/min

Hydraulic Pressure

18.6 Mpa

Pump Type

High pressure gear pump

Control Mechanism

Hydraulic operated pilot control

Under Carriage System

Track Rollers Configuration

- 4 single rollers
- 3 double rollers

Sprocket Design

Elevated
